Select caribbean properties

For nearly a decade, Select Caribbean Properties has specialized in luxury real estate offerings in the Dominican Republic. With links to other agencies spread throughout the [Caribbean](#), Europe and [North America](#), this small but dynamic firm lists fine homes and building lots in the better communities of the north coast as well as large development parcels, farms and high-end commercial properties.

Select Caribbean Properties, represented by principal Sabine Mertes reflects an experience of 11 years. The result is an intimate knowledge of

local real estate law and a strong relationship with reputable local attorneys. Sabine has a considerable experience renovating existing properties and constructing new villas to a high international standard. In summary, the prospective investor will find that a relationship with Select Caribbean Properties will prove both professional and profitable.

Though there are dozens of real estate agencies in the Dominican Republic, many have existed for only a year or two. Select Caribbean Properties has many

years of experience living in the Dominican Republic, and as a result, knows the realities of life there. Intimate knowledge of real estate laws, strong relationships with good real estate attorneys and considerable experience building, renovating and, finally, selling real estate ensure the prospective investor of a professional, profitable relationship with positive results that will stand the test of time.

Tema Casa exerce dans l'immobilier résidentiel, Touristique et commercial depuis 1994.

Nous sommes en mesure de fournir à la clientèle au-delà d'une consultation immobilière, un ensemble de services complémentaires à la fois de nature financière, technique, juridique et économique.

L'Agenzia immobiliare TemaCasa svolge la sua attività nel campo immobiliare e creditizio per i settori residenziale, turistico e commerciale dal 1994. Siamo in grado di fornire alla clientela oltre alla consulenza immobiliare un insieme di servizi complementari alla stessa di natura finanziaria, tecnica, legale ed economica.

Assistiamo il cliente in tutte le fasi della compravendita fino al completo soddisfacimento delle sue esigenze e dei suoi bisogni avvalendoci anche della collaborazione di stimati professionisti quali notai, ingegneri e avvocati. La nostra presenza ventennale sul territorio, la competenza e la professionalità dimostrata negli anni, sono stati ripagati dalla fiducia della clientela locale e non, oltre che dalle imprese edili che affidano a noi le loro operazioni immobiliari.

Nell'ultimo anno abbiamo dedicato particolare attenzione agli immobili di prestigio sia residenziali che turistico-commerciali e alle soluzioni di nuova costruzione, senza per questo trascurare la compravendita tra privati.

Per questo motivo abbiamo ristrutturato l'organico dell'agenzia in modo da seguire due linee di operatività e di strategia: una proiettata verso le attuali richieste del mercato immobiliare e quindi opera in funzione delle caratteristiche della fascia dei consumatori più ampia; l'altra rivolta ad una clientela alla ricerca di immobili di prestigio (ville d'epoca o moderne, casali da ristrutturare e non) o di strutture da destinare al settore ricettivo-turistico, ristorativo e industriale-commerciale (SPA, hotels, residences B&B, chalet al mare, capannoni industriali, negozi commerciali etc.); un campo, quest'ultimo, con un potenziale di sviluppo ancora solo marginalmente sfruttato.

Realty Gold World non è un'agenzia immobiliare, nostra compagnia è nata a Londra nel 2010 dopo che abbiamo notato che tanti acquirenti stranieri non avendo conoscenze nei vari paesi dove acquistavano case si trovarono confrontati a vari problemi. L'obiettivo numero uno di nostra compagnia è proporre loro vari servizi di accompagnamento nel loro progetto di acquisto ma anche dopo. Per trovare questi acquirenti, ci appoggiamo su agenzie e costruttori che hanno immobili in vendita propo-

nendo loro di pubblicare i loro annunci sul nostro sito www.realtygoldworld.com visitato in 147 paesi e così ottenere richieste di potenziali acquirenti per metterli in contatto con i professionisti che vendono le case, e proporre loro i nostri servizi di accompagnamento nel loro progetto. Per aumentare la visibilità dei nostri partner professionisti immobiliare abbiamo quest'anno creato un nuovo magazine : world is magnifique e scaricabile su internet esclusivamente gratuitamente

dai lettori. Gli annunciatori possono pubblicare dentro questo magazine e su nostro sito con prezzi molto bassi, nostro scopo essendo di ottenere acquirenti per proporre loro contemporaneamente vostre case e nostri servizi. Ed in fine, per aumentare ancora la visibilità, proponiamo di organizzare una fiera immobiliare internazionale a Ginevra, città internazionale nella quale espositori possono presentare i loro immobili e firmare accordi con vari partner sul pianeta che espongono anche loro a la fiera.

Realty Gold World Limited

Realty Gold World n'est pas une agence immobilière, notre société est née à Londres en 2010 du constat que tant d'acquéreurs étrangers, n'ayant pas de connaissances précises du marché et de la fiscalité dans les pays dans lesquels ils étaient en train d'acquérir pouvaient se trouver confrontés à divers problèmes. L'objectif numéro un de notre société est de leur proposer un ensemble de services d'accompagnement dans leur projet d'acquisition mais également de suivi. Pour trouver ces acquéreurs, nous nous appuyons sur des agences et des promoteurs qui ont des propriétés à

proposer en leur permettant de publier leurs annonces sur notre site www.realtygoldworld.com visité par des internautes de 147 pays de manière à ce que nous puissions obtenir des requêtes d'informations par des potentiels acheteurs et les mettre ainsi en contact avec les professionnels qui vendent des propriétés. et ainsi leur proposer nos services d'accompagnement dans leur projet. Pour augmenter la visibilité de nos partenaires professionnels de l'immobilier, nous avons cette année lancé un nouveau magazine World is Magnifique qui sortira tous les deux mois et téléchargeable gratuite-

ment sur nos sites et différents réseaux sociaux par les lecteurs. Nos annonceurs peuvent publier à des coûts très bas sur notre site et dans le magazine, notre objectif étant d'obtenir des acquéreurs à qui proposer en même temps vos propriétés et nos services. Finance - how much does it cost to buy a property in Bulgaria?

Here is a brief list of what you may expect in the way of purchase costs. Please be aware that these costs have changed dramatically over the last few years and you need to make sure exactly what they are when you buy. At the time of writing they are as follows:

- **Company Registration Fee:** As mentioned, if the property you're interested in has land attached to it you will need to form a limited company. You will need to pay a deposit of €1,800 and a minimum of €2,500 into the company bank account. Once the company has been formed you will have access to this money, but you will be required to pay costs relating to the formation

and registration of your new company amounting to around €750.

- **Lawyer's fees:** This amounts to 1%, depending on what the lawyer is required to do. To undertake searches, draw up the preliminary and final contracts and register change of ownership usually falls within this price range.

- **State or Local tax:** This is the equivalent of the UK stamp duty and is approximately 2 - 4% of the property price. It is set by the local municipality and may vary depending on the location of the property.

- **Land Registry or Property tax:** This covers the cost of registering the title deeds with the municipality and is 0.15% of the property price.

- **Notary fees:** The notary witnessing the

purchase charges a fee of between €250-€300 euros. The fees are set by the government and depend on the purchase price of a property.

- **Translator's fees:** You may require your documents to be translated into English. The cost of this will be approximately £50.

- **Surveyor's fee:** This is optional and will vary.

Value Added Tax: The sale of property for residential purposes is exempt from value added tax.

Tema Casa exerce dans l'immobilier résidentiel, Touristique et commercial depuis 1994.

Nous sommes en mesure de fournir à la clientèle au-delà d'une consultation immobilière, un ensemble de services complémentaires à la fois de nature financière, technique, juridique et économique.

L'agence est basée à Pineto en Italie, un site offrant un cadre idyllique en bord de mer adriatique.

L'Agenzia immobiliare TemaCasa svolge la sua attività nel campo immobiliare e creditizio per i settori residenziale, turistico e commerciale dal 1994. Siamo in grado di fornire alla clientela oltre alla consulenza immobiliare un insieme di servizi complementari alla stessa di natura finanziaria, tecnica, legale ed economica.

Assistiamo il cliente in tutte le fasi della compravendita fino al completo soddisfacimento delle sue esigenze e dei suoi bisogni avvalendoci anche della collaborazione di stimati professionisti quali notai, ingegneri e avvocati.

La nostra presenza ventennale sul territorio, la competenza e la professionalità dimostrata negli anni, sono stati ripagati dalla fiducia della clientela locale e non, oltre che dalle imprese edili che affidano a noi le loro operazioni immobiliari.

Nell'ultimo anno abbiamo dedicato particolare attenzione agli immobili di prestigio sia residenziali che turistico-commerciali e alle soluzioni di nuova costruzione, senza per questo trascurare la compravendita tra privati.

Per questo motivo abbiamo ristrutturato l'organico dell'agenzia in modo da seguire due linee di operatività e di strategia: una proiettata verso le attuali richieste del mercato immobiliare e quindi opera in funzione delle caratteristiche della fascia dei consumatori più ampia; l'altra rivolta ad una clientela alla ricerca di immobili di prestigio (ville d'epoca o moderne, casali da ristrutturare e non) o di strutture da destinare al settore ricettivo-turistico, ristorativo e industriale-commerciale (SPA, hotels, residences B&B, chalet al mare, capannoni industriali, negozi commerciali etc..); un campo, quest'ultimo, con un potenziale di sviluppo ancora solo marginalmente sfruttato.
