La Lettre

The Letter

Cher lecteur,

Nous vous remercions pour votre intérêt dans ce nouveau magazine qui nous l'espérons, saura vous donner satisfaction et pourra vous éclairer sur vos projets personnels. Tous les deux mois, nous tenterons de vous renseigner sur les évolutions du marché immobilier mondial, pour vous aider à vous faire une opinion personnelle pertinente.

Après ces dernières années de crise mondiale, nous pouvons maintenant constater que les règles ont changé d'un continent à l'autre.

Si les Etats Unis ont réussi à reprendre une croissance, aussi timide soit elle, la stratégie adoptée montre que sur la base d'une réflexion simple, (mettre l'offre en adéquation avec la demande) évite l'effondrement et apporte même la perspective d'une évolution.

L'Europe est encore en retard de ce point de vue là. Les différences d'un pays à l'autre démontrent un avancement à des vitesses différentes. Il n'en demeure pas moins que l'Europe reste l'une des puissances mondiale avec laquelle il faut compter.

L'Asie et autres pays en pleine croissance nous montrent que la croissance est présente et se développe dans les endroits où une gestion fiscale optimisée attire capitaux et investisseurs.

Tous tentent de sortir du marasme économique mondial qui a éclaté après la crise, seuls quelques uns y parviennent.

Et vous ? Qu'avez-vous décidé ?

Dear Reader,

We thank you for your interest in this new magazine who, we hope for it, will know how to give you satisfaction and will can inform you on your personal projects. Each two months, we shall try to inform you about the evolutions of the world real estate market, to help you to be made a personal relevant opinion.

After these last years of world crisis, we can now notice that rules changed a continent in the other one.

If the United States have managed to resume a growth, so shy is it, the adopted strategy shows that on the basis of a simple reflection, (put the offer in adequacy with the request avoid the collapse and brings even the prospect of an evolution.

Europe is still late from this point of view. The differences from a country to the other one show a progress to different speeds. The fact remains that Europe remains one of the powers world with which it's necessary to count.

Asia and other countries rapidly expanding show us that the growth is present and develops in places or an optimized tax system management attracts capital and investors.

All try to go out of the world economic slump which burst after the crisis, only some reach there.

And you ? What have you decided ?

Investisseurs - Investors

L'immobilier reste une valeur sûre !

Selon que l'on soit un investisseur Européen, Américain, Russe ou asiatique, ou bien des pays du golfe, les motivations de chacun peuvent être très différentes.

Les difficultés rencontrées par les organismes bancaires ces dernières années ont semé le doute dans l'esprit des investisseurs.

Bien que certaines banques réalisent des bénéfices en 2013, les décisions de certaines directions des banques ne donnent pas vraiment confiance.

Les licenciements de personnel continuent, reventes de données personnelles de clients ou encore augmentation des frais de banques et des taxes par certains états sont autant d'éléments qui poussent les investisseurs vers d'autres types de produits.

Dans ce contexte, vers quel produit investir ?

L'immobilier reste une valeur sûre malgré la crise.

La croissance démographique mondiale ainsi que l'augmentation des libertés individuelles à travers les pays de la planète de voyager ou investir dans d'autres pays contribuent à maintenir une demande globalement forte du logement.

Mais tout le monde n'a pas le même but.

Quel type d'investissement, et dans quel pays, en fonction de l'objectif recherché.

Objectif Résidence secondaire, objectif logement expatrié, objectif investissement avec rente et faibles taxes, objectif transaction achat et revente avec profits, objectif prestige et luxe, les demandes des investisseurs sont nombreuses et variées, mais les projets sur le marché répondent à ces demandes ?

De toute manière, L'état et votre banque ne pourront pas vous prendre l'argent que vous aurez converti en pierre, à conditions que vous soyez en pleine propriété. Un jour ou l'autre votre maison coûtera plus cher que ce que vous l'avez payé.

The real estate remains a sure value !

As we are an European, American, Russian or Asian investor, either countries of the gulf, the motivations of each can be very different.

The difficulties met by the banking bodies these last years sowed doubt in mind of the investors. Although some banks make a profit in 2013, the decisions of certain managements of banks do not really give trust.

The dismissals of staff continue, personal data of customers are sometimes sold or still increase of the expenses of banks and taxes by certain states are so many reasons with push the investors towards other products types.

In this context, towards what product to invest? The real estate remains a sure value in spite of the crisis.

The world population growth as well the increase of the personal freedoms through the countries of the planet, to travel, or invest overseas contribute to maintain a globally strong request of housing.

But everybody don't have the same goal.

Which type of investment, and in which country, according to the sought objective.

Objective second residence, Objective exiled housing, objective investment with annual income and law taxes, objective transaction purchase and resale with profits, objective prestigious and luxury home, the request of the investors are numerous but the projects on the market answer these demand ?

Anyway, The States and your bank can't take your money when you convert it in stone. But purchase in full property.

One day your home cost more than you pay it.

Il Nostro Network è costituito dai Partner Fondatori E da Fornitori fidelizzati chiamati a partecipare ai progetti in funzione delle loro competenze specifiche.

Tutti i membri del Network sono aziende di elevata professionalità, con esperienza pluriennale nel settore immobiliare.

In un mondo del lavoro in cui i cambiamenti e la competizione sono in costante crescita, diventa troppo oneroso possedere tutte le competenze e le capacità necessarie per affrontare i progetti sempre più complessi richiesti dal mercato.

Da qui l'intuizione di costruire un Network di Consulenti Immobiliari in Rete che, pur restando autonomi l'uno dall'altro, si legano in Rete per condividere la conoscenza, gestire progetti, utilizzare linguaggi comuni, e soddisfare così le esigenze del Cliente coniugando l'efficacia con l'efficienza e per raggiungere il traguardo del risparmio sui costi e uno sviluppo di vendita in tempi ridotti.

Le aziende che fanno parte del Network lavorano con un forte orientamento all'obiettivo, rigenerando ad ogni passo le motivazioni ed i vantaggi del lavorare insieme nell'interesse del Cliente.

Website : <http://www.consimm.org> mailto : info@consimm.org

Our network is constituted by the founding partners and by the developed loyalty suppliers called to participate in the projects according to their specific track record. All the members of the network are companies with a high track record, and long experience in the real estate sector. In a world of the work In whom the changes and the competitiveness are constantly growing, it becomes too expensive to possess all the skills and all the capacities To accept more and more complex projects on the market.

Here why is the interest to build consultants' real estate network, which while keeping their autonomy, Decide to be bound in network to share the knowledge and the management of complex projects, use tools and so satisfy the requirements of the clientele.

The companies of our group conjugate their efforts in the interest of the customer.

Notre réseau est constitué des partenaires fondateurs et de fournisseurs fidélisés appelés à participer aux projets en fonction de leurs compétences spécifiques. Tous les membres du réseau sont des entreprises avec une professionnalité élevée, et longue expérience dans le secteur immobilier.

Dans un monde du travail dans lequel les changements et la compétitivité sont en croissance constante, il devient trop onéreux de posséder toutes les compétences et toutes les capacités à assumer des projets de plus en plus complexes sur le marché. D'où l'intérêt de construire un réseau de consultants immobilier, qui tout en gardant leur autonomie, décident de se lier en réseau pour partager les connaissances et la gestion de projets complexes, utiliser des outils et ainsi satisfaire les exigences de la clientèle. Les entreprises de notre groupe conjuguent leurs efforts dans l'intérêt du client.
